Throughout the course of study, the student will demonstrate skills for historical thinking, geographical analysis, economic decision making, and responsible citizenship by

- using artifacts and primary and secondary sources to develop an understanding of Virginia history;
- using basic map skills to support an understanding of Virginia history;
- using and creating graphs, diagrams, and pictures to determine characteristics of people, places, or events to support an understanding of Virginia history;
- asking appropriate questions to solve a problem;
- comparing and contrasting people, places, or events in Virginia history;
- recognizing direct cause-and-effect relationships;
- making connections between past and present;
- using a decision-making model to make informed decisions;
- practicing good citizenship skills and respect for rules and laws while collaborating, compromising, and participating in classroom activities; and
- developing fluency in content vocabulary and comprehension of oral, written, and visual sources.
